

Customer Success Story

Helens Little Angels

HelensLittleAngels
...for all your childcare needs, from birth onwards

*"a big thank you to the whole team
for giving me my dream website."*

I just wanted to write and thank Advansys for producing such a wonderful website for my business, I'm delighted with the result and it's done the world of good for my business 'image'. As for the photo gallery, this is amazing and vital to my business so thank you for getting this absolutely perfect! I've been overwhelmed with the feedback from parents looking for childcare, they are so impressed that one even went to the trouble of writing to me just giving me lots of great feedback and wishing me well with my business, because they could see I had no vacancies – not many people would go to the trouble of writing just to say that!

My whole experience of dealing with Advansys has been much better than I ever imagined it would be. My account manager and was absolutely fantastic with communication and I felt I could (and still can!) contact her with ANY questions and she would very politely and in a timely manner respond to me. In fact she has been so polite and accommodating; I feel I have made a new friend! I was never in contact with the person who actually designed my website but would like to send them a big thank you for the amazing job of building my site. I was very nervous at the start as I had a slight idea of what I wanted but felt I probably couldn't get this across to someone else, but I completed the forms provided at the start and the design of my homepage couldn't have been more 'spot on' if they tried. It was like someone had got inside my head and knew EXACTLY what I was looking for but somehow they managed to make it even better than that! So a big thank you to the whole team for giving me my dream website.

Flexible Content Management System

"it was like someone had got inside my head and knew EXACTLY what I was looking for"

I would also like to comment on the FANTASTIC 'Content Management System'. I was informed at the start that I would have one of these so I could make any changes to my site myself but I was expecting to be having to bombard the team with questions to help me understand how it worked. Well I've been pleasantly surprised at how 'user friendly' it is. I've made numerous changes to the site since it was completed, purely because the amount of business being generated meant the need for an assistant to work with me, so I re-wrote a lot of pages to fit in with this. I've been able to do all this so easily by myself, it is incredibly easy to use! Having said that, if I had any problems I know I could contact my Account Manager again and she would be only too pleased to help me.

So a very big thank you to Advansys for a great job! I may well be coming to you in the near future as my husband is setting up a small business and we'd love you to build that website too!

Many thanks
